Purpose

In order to setup a successful website of our committee, we need to redesign and migrate of the current web page of NSA TC to WordPress.

Process

The renewing the web page was performed by the following steps.

- 1) Project Proposal
- 2) Waiting for Approval
- 3) Design
- 4) Implementation
- 5) Final Prototype Available
- 6) Testing
- 7) Release
- 8) Testing and Revision

Results

By using the new web page, it is easy to update any items by the officers of NSA TC. Because, WordPress has the features as follows.

- Themes - All themes are released under the GNU General Public License (GPL)
- Plugins - Allows for easy integration of custom features
